

Clearway Toreadoor Keyless door

The only steel security door in its class approved by the UK police for design and security excellence

Product overview

Designed from the ground up, the Clearway Keyless Toreadoor was the first of its kind to be accredited to the LPS1175 standard, receiving UK Police & Insurance approval, and incorporates many unique security features which specifically provide continued resistance to high-impact assault and/or repeated attempts at intrusion.

An integrated state-of-the-art bespoke communications panel provides full remote access for control room staff, date-specific codes and constant activity logging. Significantly, Toreadoors also allow easy management of access for authorised personnel, removing concerns for the property owner or manager of lost or missing keys, or being called out simply to provide access as required.

Applications

Clearway Toreadoor Keyless door is suitable for a wide variety of environments/locations:

- Vacant property security
- Occupied property security
- Storage yards
- Warehousing
- Temporary works security
- Scrapyards

Why Clearway Toreadoor Keyless door?

- ✓ Only door in its class approved by the UK Police for design and security excellence
- ✓ Full remote access is provided via integrated, bespoke communications panel - programme your own entry codes
- ✓ The built-in twin battery system provides unique fail-safe operation allowing for more than 150,000 door operations for up to 9 years
- ✓ Tested and certified to LPS1175 Issue 7 and approved by insurance companies
- ✓ Built-in technology integrates with and can automatically activate/deactivate our Verified Video Alarm System
- ✓ A manual internal mechanism allows for easy/rapid exit in emergencies so you can never be locked in
- ✓ Single use access codes are available for emergency services and unexpected visitors
- ✓ Keyless operation is via unique five-digit numeric code entered into a built-in keypad
- ✓ No external handles - contactless, automatic opening
- ✓ The automatic locking and slam-lock system keeps the door locked at all times
- ✓ Unique, independent, five-point locking mechanism
- ✓ Door cannot be removed by cutting off the hinges
