Concrete Barrier and Block Hire

RDB'S Rapid Deployment Barriers

Barrier Specifications

Secure Empty Property

Dear Customer,

We would like to thank you for your interest in using Secure Empty Property for your site security.
We have listed below the different barrier blocks we have available.
If your site requires access to be maintained, then please ask for information on our security gate system which can be used in conjunction with our barrier blocks.

We are constantly evolving our products and alongside offering stand-alone blocks we also have options for linking all our barrier blocks, including the NEW RDB XL!

RDB MKI

Size 2500 x 500 x 750mm weight 2250kg (approx.)

Linking system: Steel top hat bolted and location tongue
fitted to each barrier to join them.

RDB MK 2

Size 3000 x 450 x 750mm weight 2400kg (approx.)

Linking system: Our unique security nut allows us to bolt
the barriers together, the nuts cannot be undone without
our bespoke tool.

RDB XL

4250 x 700 x 750MM weight 5000kg (approx.)

Linking system: A unique system developed to join the barriers together without any visible sign from outside.
